

Recital 2019

Over the Rainbow

DVD or USB Order Form

The performance will be videotaped this year by Josh Burdett of Boston Freelance Media. The show will be available to purchase by either DVD or USB. We will send out a notice when they are in and they can be picked up at the studio during summer classes or they can be mailed for an additional charge. The show will be recorded at both the Saturday and Sunday performance. You must select which show you would like to purchase.

Please Note: personal videotaping and photography is strictly prohibited in the theater during performances.

A USB flash drive, also variously known as a thumb drive, flash-drive, memory stick or USB memory, is a data storage device that includes flash memory with an integrated USB interface.

PROS:

- HD Quality. DVD's are at best, half that
- Can be played on any computer or plugged into most smart TV's
- Don't need to have a DVD player
- Easier and safer to ship

CONS:

- Need a computer or TV with USB input
- May be a few dollars more expensive (USB route)
- Requires basic tech knowledge
